

CROWNED

Was King Edward In London This Noon.

Forty Americans Were In The Abbey.

SLIGHT ACCIDENT OCCURRED IN PROCESSION.

KING EDWARD WAS VERY PALE.

And Shows Effects of His Illness—Officially Announced He Suffered No Fatigue.

London, Aug. 9.—King Edward was crowned today at 12:21 o'clock. As the crown was placed on his head the signal was flashed from the gallery of the abbey to the roofman, who in turn telegraphed the news to Hyde Park and the tower. At these places when the word was received that the real act of coronation had occurred, the artillery fired salute after salute and this joined with the ringing of bells, made the whole city reverberate with acclamations of joy. Two of the royal carriages in the coronation procession from the palace to the Abbey, collided in the Mall. Lord Edward Pelham Clinton was slightly injured.

There were about forty Americans in the Abbey, including the United States Embassy staff, newspaper men, Mr. and Mrs. Chas. Yerkes of Chicago, Justice Brown of the United States Supreme court, Bishop Kartzell, ex-Archbishop of New York, E. L. Baylies of special ambassador Whitelaw Reid's staff, Josiah Quincy of Boston, General Wilson and his two daughters, J. P. Morgan, Miss Morgan and Mr. and Mrs. J. H. Morgan, Jr. J. P. Morgan was treated with the greatest distinction, being given a seat in the front row of the diplomatic gallery.

London, Aug. 9.—King Edward's appearance did not bear out the statement of the physicians that he is entirely recovered. He was very pale and during the coronation seemed to rise with difficulty from his chair. It is officially announced that the king bore the coronation ceremony very well. He is not suffering any fatigue.

MANY KILLED.

Port au Prince, Aug. 9.—(Bulletin) In a battle between rebels and provisional government forces many were killed. Cape Haytien is threatened.

WIFE BEATER

Knocked Down His Wife While Standing by the Side of Her Father's Coffin.

Chicago, Aug. 9.—Standing beside the coffin containing her father's body, Mrs. Stanley Strane, 8724 Houston avenue, begged her husband to give her money for food for herself and her children.

His answer was a blow, followed by a second and a third. She fell fainting to the floor.

Last Saturday Strane was released from the bridewell, where he had served a six months' sentence for wife beating.

In spite of his former cruelty his wife took him back only a few days ago. Her father, who had lived with her, died last night, and she was out of money and food. When she asked for money to get food for the hungry children the brute struck her the blow that felled her.

Louis, the 12-year-old son, heard his mother scream before she fainted.

He ran to the police station and aid was hurriedly sent. Strane is locked up in the cell he occupied before he was sent to the Bridewell.

JUMPED TRACK

Electric Crane Fell Thirty Feet, Killing Two of Twenty-Five Men Who Were in It.

Pittsburg, Aug. 9.—A traveling electric crane in the 38-inch mill in the yard of the Carnegie Steel company at Homestead, jumped from its overhead track shortly before 3 o'clock this morning, a distance of 30 feet, landing in the yard below. Twenty-five men were in the crane cab, and one was instantly killed. Another lingered three hours. The dead are: Wm. Shaffer and Jos. Lesneck.

FARLEY

To Be Archbishop of New York Is the Assertion Made in Metropolis. Announcement Expected.

New York, Aug. 9.—The assertion is made today that the nomination of Rt. Rev. John M. Farley to be archbishop of New York has been confirmed by the authorities at Rome and that the appointment will be formally announced August 15.

BONDED DEBT INCREASED

Cleveland, Aug. 9.—The Northern Traction company will increase the bonded indebtedness from 3 to 5 millions and spend one million in improvements in the near future.

PRINCE HENRY

Buys an Assassination Policy Calling for \$900,000—First One Yet Written

New York, Aug. 9.—Prince Henry of Prussia, has taken out an assassination policy for \$900,000, payable only in the event of his death at the hands of assassination. It is said to be the first insurance policy of its kind to be written.

DYNAMITE

GNAWED BY VALUABLE COWS—NEAR ALTOONA.

Thirteen Valuable Registered Holsteins Blown to Smithereens Mr. Peters' Pasture.

Altoona, Pa., Aug. 9.—Thirteen cows belonging to Claude Peters, a Martinsburg dairyman, found some dynamite yesterday in a shed which telephone linemen had erected on Peter's pasture. Some of them began gnawing it. The friction caused an explosion and in an instant the air was filled with particles of flying cow. Every one of the cows was killed. The loss is several thousand dollars, as the herd was composed of registered Holsteins.

Chicago Murder.

Chicago, Aug. 9.—W. A. Scott, president of the Illinois Wire Co., was killed today by W. L. Stubbings, civil engineer, during an altercation over a bill. A dagger like paper knife was used. Both men were prominent socially, and wealthy. There were no witnesses.

MISS SQUIRES INSULTED.

Havana, Aug. 9.—President Palma and his cabinet deplore the insults offered Mrs. Squires, wife of the American minister, yesterday by La Union Espanola, which accused the minister's wife of indecent conduct at the President's diplomatic dinner on Wednesday night. The case will be prosecuted.

BOILER

In Laundry Blows Up At Adrian, Mich.

One Killed Several Hurt Two Are Missing.

A BIG SECTION BLOWN OVER A TWO-STORY BUILDING

LAUNDRY BUILDING IS WRECKED

Boiler Had Been Carrying 40 Pounds of Steam—A List of the Dead and Injured

Adrian, Mich., Aug. 9.—The boiler in Arthur Oram's Excelsior Laundry at No 50 West Maumee street, exploded at 8:40 this morning with terrific force, making a complete wreck of the whole building which is a small wooden structure next to a brick block. The killed:

James Oram, son of the proprietor, literally blown to pieces.

The injured:

Carl Hall, engineer, will die, leg broken, shoulder badly injured.

Willie Oram, younger son of the proprietor, badly scalded about the face.

Theresa Farmer, employe, bruised slightly.

Anna Baughey, employe, injured about the shoulder.

John Baughey, her father, had cut on forehead.

Mary Mattimore, ankle broken, cut on head.

Two girls are missing.

The boiler had been carrying only 40 pounds of steam. The dome and one section weighing 500 pounds was carried across the street over two story buildings.

Body Recovered.

Linnville, O., Aug. 9.—After dragging the lake all day, the body of Mrs. Joseph Stewart, who was drowned in Buckeye Lake, was found at 4 o'clock Friday afternoon, a quarter of a mile from shore. The funeral will take place Sunday at Pleasantville.

POSITIVELY

William J. Bryan Says He is Not a Candidate for President in 1904

Muscatine, Ia., Aug. 9.—W. J. Bryan in an interview here yesterday said positively that he would not be a candidate for President in 1904. He said he was satisfied to live as a private citizen.

MYSTERY

OF THE DISAPPEARANCE OF THE CHICAGO GIRL.

Her Lover and the Latter's Mother Has Been Solved the Police Now Think.

Chicago, Aug. 9.—The police today believe they have solved the mystery of the disappearance of Minnie Mitchell, her lover, Wm. Bartholin and his mother, Anna Bartholin. Minnie Mitchell's murdered body was found with a bullet in the head. The body of a man of Bartholin's description was found this morning. Mrs. Bartholin is still missing. The theory is that Bartholin in a fit of jealousy killed Miss Mitchell, then killed his mother, and after which he committed suicide.

At police headquarters this noon report was current that Mrs. Bartholin's body had been found in the basement of her home where it evidently had been for a month. It was badly decomposed.

Strikers Routed.

Scranton, Pa., Aug. 9.—Strikers marched on the Panoct colliery this morning. They stoned the colliery and engaged the coal and iron police in the conflict. Shots were exchanged and three strikers wounded. The strikers were then routed and fled.

Fitzhugh Taylor, a young Chicago scientist, is said to be at work on an improved airship which, it is hoped, will be even more easily manageable than that of M. Santos-Dumont.

COURT MARTIALS

Hundreds of Cases Have Been Tried in the Philippines—Summary of the Results

Washington, Aug. 9.—A recent mail from the Philippines contains an interesting summary of the results of court martial cases in the Philippine Islands. It shows that the accused in 227 cases were dishonorably discharged, in 231 cases forfeited pay and allowances, in 115 cases suffered other punishment, in 110 cases were fined and in 32 cases were sentenced to confinement. The charges included murder, manslaughter, assaults and attempted rape. Most of the charges, however, were for trivial offenses and were based upon complaints made by native Filipinos. The record shows that the military courts have imposed severe sentences for all serious breaches of discipline, in some instances inflicting the death penalty.

NEWS IN BRIEF.

Goodhair soap cures Prickly Heat Sprague, Optician, 16 W. Church st. Smith & Nixon Pianos at Rawlings Read the Advocate want ads on page 6 today.

Have you made a guess on Newark's population? See particulars in another column. Thirty-five prizes given away.

WILL.—The will of Jeremiah L. Beem has been admitted to probate, and Marvin W. Chapin B. and Alda M. Beem have been appointed executors.

CHILD'S CAPE.—Chas. Hafner, who drives wagon for Newark Steam Laundry, found a child's light colored cape between Fifth and Sixth streets on Church. Owner can get it at Advocate office.

PICNIC.—The Baptist church and Sunday school will hold their annual picnic on Tuesday, August 12 at Buckeye Lake. Cars leave at 9 a. m. Special rate 25 cents round trip. Tickets good on later cars. Everybody invited.

PICNIC.—The employees of Thomas' foundry are having an outing today. They are holding a big picnic at Buckeye Lake, and there is a big attendance. The day is being spent in all kinds of amusements, and in having a good social time.

CREAMERY.—The new creamery that has been established at Vanatta by Eldridge & Gibson, is practically completed at a cost of between \$8,000 and \$9,000. The creamery is located just across the way from the railroad station. The finishing touches will be put on next week, and it is expected that the week following it will commence operations. This creamery will be one of the largest in the state.

CROWDS

Will Visit Big Camp Sunday.

Advantages To Newark Of A Division Camp.

MAGNIFICENT REVIEW OF THE BRIGADE TROOPS.

RECEPTION TO THE GOVERNOR.

Program for Sunday—Band Concert With 150 Pieces—Review Tomorrow—Camp Ends Monday.

Camp McKinley, Aug. 9.—The following in brief is the program for the remaining time the troops will be here in camp:

Reception and smoker by Newark Elks tonight; public reception to men for Governor, Nash, General Dick, Secretary of State Laylin and others at H. J. Hoover's home, 74 Granville street, between 9 and 10 tonight.

Guard mount Sunday morning.

Union religious services in grove in front of General Speaks' headquarters at 3 p. m. Sunday.

Band concert, 150 pieces, five bands combined following Sunday religious services at 3 p. m.

Grand brigade review by the Governor, Major General Dick, Brig. Generals Speaks, McMaken and staffs at 5 p. m. Sunday.

Monday—Break camp.

Camp McKinley, Aug. 9.—The most inspiring sight ever witnessed on the State Camp Grounds, was the brigade review of the Second Brigade, Ohio National Guard, by Governor Nash, Generals Dick and Speaks.

The review took place of regimental dress parade, from which it differs very little, and as the name suggests was participated in by the four regiments and battalion of Engineers composing the brigade.

The brigade lined up in "lines of masses" the only time this maneuver was ever attempted here by more than one regiment, and only once by a single regiment, Col. Stanberry's, Sixth, performing the maneuver with bayonet drill, last July.

A review of the First Brigade was held last month, when probably as many men were in line, but the "line of masses" formation was not attempted.

In reviewing the First, the reg-

(Continued on page 3.)

TWO BIG NEW MILLS

Steel Plant and Ingot Mold Mill Costing Over \$240,000 and Employing About 500 Men Can Be Secured by Selling 200 Lots==
Board of Trade is Able to Offer Another Inducement
==Committees Will Begin Work Monday.

Several days ago the Board of Trade learned that the James E. Thomas company was about to erect an ingot mold mill to cost from \$75,000 to \$100,000, either in Newark or in the vicinity of Pittsburg, and immediately a committee waited upon Mr. Edward Thomas to ascertain upon what conditions Newark could be assured of the new industry. The conference developed the fact that plant might be located in Newark with the proper effort and with that end in view the lot sale for the steel mill was suspended temporarily till negotiations could be completed whereby the Board of Trade might secure two industries for the city with the same effort necessary to get one.

After repeated conferences with Mr. L. C. Taylor and Mr. Thomas, the Board is finally able to definitely announce today that a contract has been entered into whereby the sale of two hundred lots by the Board of Trade will land both industries, thus securing from 450 to 500 men instead of 300, under the contract with the steel company. The new contract means also that at least \$240,000 will be put into new buildings for the two new industries, instead of \$165,000 alone for the steel plant. These are figures in the contract, but both Mr. Thomas and Mr.

Taylor say that the sums necessary to build and equip both institutions will be in excess of the amounts named in the contract.

Under the conditions of the new contract, enough of the money derived from the sale of 200 lots, all paid to S. F. VanVoorhis, trustee, will be used to buy the nine acre Kennedy tract, east of the proposed steel mill site, and lying near the new furniture factory. A bridge will span the Racoon creek joining the steel mill addition, with the Kennedy tract.

The Board of Trade feels that it has accomplished a good work for the city in making this arrangement whereby the city will secure two new and valuable institutions in the place of one. Not only will there be additional advantage from the increased number of men and the increased amount of money that will go directly into the two new plants, but the value of the lots which the people are asked to buy, will be materially increased. The two plants are to be close together and will be right in the heart of the land which will be divided into lots. With the improvements to be made on the property, the bridge and the underground passage under the railroad tracks, the lots will be cheap at the price for which they will be sold. Recognizing the increased value of the property by the location of these two industries there, the steel company is willing to hold a large part of the Forry land, knowing that it will be worth

very soon more money than the Board of Trade will ask for the lots to be sold at the present time.

Here is a fact that must not be lost sight of: If the sale of the 200 lots fails, Newark will not only lose the steel mill, but the new Thomas ingot mold mill also. Already a good start has been made on the lot sale, and now with the additional inducement of the proposed ingot mill, which will cost from \$75,000 to \$100,000, and will employ 150 to 200 men itself, the Board anticipates little trouble in disposing of the remaining lots. The present Thomas foundry will continue to run, whether the new plant is built here or not.

The committee will go to work on Monday morning with the hope of pushing this proposition through quickly.

Buy a lot and you get your money's worth and at the same time you will help to land two more big and up-to-date mills to Newark's industries.

Your failure to help at this time may cause Newark to lose these two plants, which alone will bring hundreds of new families to town and will increase the volume of business in the city and enhance the value of every piece of property in town. Newark has been growing and prospering. Don't let it stop. Lend a hand and you will be glad when the good work is accomplished of your participation in it. Be ready to buy a lot or two when the committee calls upon you.

DEMOCRATIC COUNTY TICKET.

Probate Judge,
WALDO TAYLOR.

Sheriff,
WM. H. ANDERSON, Jr.

Prosecuting Attorney,
J. P. FITZGIBBON.

County Commissioner,
JOSEPH E. BROWNFIELD.

County Surveyor,
C. P. KNISELY.

Infirmary Director,
CHARLES S. HOWARD.

Coroner,
SCOTT J. EVANS.

CIRCUIT JUDICIAL TICKET.
For Circuit Judge,
S. M. DOUGLASS, of Mansfield.

There is a movement among some of the Democratic senators and representatives to have the minority in the state board of commerce. This is a single provision for home rule and is by all odds the most Democratic measure yet suggested. It is quite likely that it will be adopted as the Democratic code and so urged in the legislature and in the campaign following the Sandusky convention.

TREASURY EXPERTS ALARMED.

(Chicago Chronicle.)

A revenue expert of the treasury department is quoted as saying that the country is in no condition for tariff revision just now if it means a reduction of revenue. The treasury statements for July convince him that the surplus will be very small, if there is any at all, at the end of this fiscal year. They convince him that there will be a deficit if importers are led to expect an early reduction of duties. Another check "such as occurred in the general pass of 1893-94 would leave us \$200,000,000 to the bad in a year."

The surprising thing about this is the admission by a Republican treasury official that there will be little or no surplus for the current fiscal year even if there is no reduction of the tariff and no talk of any.

Other treasury officials are hardly through with explaining that the July deficit signifies nothing because expenditures are always heavy in July when this one lets out the secret that the experts of the department know that it signifies a great deal.

It amounts to an official admission that congress voted money recklessly during the late session and that Mr. Cannon sounded no false alarm when he vehemently protested against the congressional riot of prodigality.

As for any danger from such talk about tariff reduction as is now current in the west, it is purely imaginary. Nobody supposes for a moment that the present congress will reduce the tariff during the short remainder of its life.

The next congress is hardly more likely to reduce it, because if the Democrats get control of the house, which is probable enough, the senate will continue to be Republican during the life of the next congress, and the President is too much of a protectionist to sign any bill providing for a radical reduction.

Importers understand all that and they are not going to postpone importing in expectation of lower duties for the next two years at least. Treasury officials understand it, too, and their evident alarm as to the surplus is the more significant for that reason.

E. W. GROVE.

This name must appear on every box of genuine Laxative Bromo Quinine Tablets, the remedy that cures a cold in one day.

POLICE BOARDS

To Be Appointed By the Governor

Odious Clause in the New Municipal Code—Concession to George B. Cox—But Will Meet Strong Opposition When the Extra Session Meets.

Columbus, O., Aug. 9.—Governor Nash's municipal code is substantially completed. That portion of it relating to the government of cities received the finishing touches just before the governor's departure for the encampment at Newark on Monday, and the other portion relating to the government of villages has been since practically completed by the governor's counselors, among whom corporation lawyers and politicians are in absolute control, numerically and otherwise. The village code still remains to be approved by the governor and when this is done the agony will be over. It is understood that the line of demarcation between cities and villages is still open for settlement and may so remain for some time. The governor still favors a policy that would deprive many of the most prosperous smaller cities in Ohio of their present dignity and reduce them to the rank of villages, but this proposition is so vigorously opposed from Republican sources and is being fought so valiantly by a united Democratic press that there is no telling what will become of it. The indications are that the governor will have to succumb.

The greatest bone of contention, however, and the one that is calculated to upset the whole code as it now stands, has been temporarily settled in favor of the governor. The odious clause providing for the appointment of the police boards of cities by the governor will be in the new code when submitted to the legislature. How long it will remain there after that event is another question. The popular opposition to this scheme has not diminished, although a few legislators and some of the more slavish of the Hanna followers have been brought unwillingly to its support by one means or another. The idea is entirely a concession to George B. Cox, whom the governor no longer hesitates to praise. His supporters are told that Cox must be conciliated or the whole Republican party will go to smash in Ohio, and this humiliating confession has in fact been of some value to the present code-makers. It is by no means certain, however, that it will work the same way in the legislature. Those Republicans opposed to it may retaliate by introducing other legislation calculated to prolong the session indefinitely, holding this as a club over the governor to induce him to consent to the elimination of the obnoxious provision from the code. In the face of such a threat it is very likely that both Cox and the governor would be forced to surrender. Meanwhile the Democrats can play a pretty long game of this kind themselves; so that, all things considered, it is doubtful that the pet scheme of the boss code builders will eventually bear the fruit anticipated of it.

That portion of the code relating to the government of cities is a double-back-action, criss-cross hodge-podge as it now stands. It is part federal, part imperialistic and wholly incongruous. Its provisions flop from one system of municipal government to another with the utmost abandon until the bewildering student of it is

The Next Great Alpine Tunnel.
Continental tourists will be interested in a project now believed to be very near realization for the construction of a tunnel through the Jura near the Col de la Faucille, says the Westminster Gazette. The practical result of the execution of the plan will be that the route from Paris to Geneva will be direct instead of roundabout and that Geneva, instead of Lausanne, will be the natural point at which to enter Switzerland for the Rhone valley resorts and proceed by the Simplon to Milan. The actual distance from Paris to Milan will, indeed, only be one kilometer less by the new route than by the old, but time will none the less be saved. Owing to the steep gradients trains can only creep from Pontarlier to Lausanne. By the new route they will be able to run at express speed all the way from Dijon to Geneva.

Grove's Black Root Liver Pills.
GROVE'S BLACK ROOT LIVER PILLS. Made from an active principle obtained from Black Root. They act on the liver (and on the bowels) and leave no bad after effects. They bring no sick stomach. With care chronic constipation. Price 25 cents.

Columbus, O., Aug. 9.—Governor Nash's municipal code is substantially completed. Monument to British at Delhi.
The secretary for India has commissioned a London firm to execute a granite monument to be erected at Rajapur cemetery, Delhi, says the London Standard. Portraits of the king and queen and of the late Queen Victoria will be carved on the sides of the monument, together with the following inscription: "Sacred to the memory of the officers and men of the British army buried here who fell before Delhi from June to September, 1857, gallantly upholding their country's cause."

Pills For Mosquitoes.
Quinine having proved inadequate to forestall malaria carried by mosquitoes, Professor Grassi of Rome is experimenting with a pill that, besides quinine, contains iron, citron, arsenic and "bitter extract," says the New York Journal. Grown persons take six, children half as many, pills, and no mosquito goes near them.

THE BUTT OF THE COMPANY

[Original]
There is nothing that will engender such contempt among men for a companion as effeminacy. And yet, while we all know what effeminacy is as distinguished from what is feminine, we cannot describe it. It is often a question whether we are right in attributing it in any given case.

In 1870 I was serving with the 4th United States cavalry. One June day it was announced that a newly made second lieutenant from West Point had been assigned to our company and would soon report for duty with a squad of recruits. He came along in time, but instead of bringing recruits brought one gentle looking young fellow, who appeared to be far better fitted for a poet than a soldier. Meriwether was his name, and he hadn't been at the fort a day before the men began to call him Mary. Then followed a series of practical jokes of which he was the butt. In some unexplainable way he got salt in his coffee instead of sugar. Then there was cactus in his bunk. Coming off guard and turning in for a good snooze, he was sure to be awakened by mistake for the midnight relief. He was the most unsuspecting little chap I ever saw, and as the boys always expressed wonder how such mistakes could happen, besides great sympathy for him, it never entered his head that they were at the bottom of his discomforts. Indeed one day he came to me as first sergeant of the company and asked me if he couldn't take extra tours of guard duty for some of the ringleaders, they having expressed an extraordinary amount of sorrow that he had stumbled over a pile of condemned muskets on a dark night. Since they had put him in his way this was a trifle too much for even my thick skin. I told him not to bother me with ridiculous questions and warned the ringleaders that I would see the first man punished who should again impose upon him. The first man was Tom Conover, who had been the instigator of the most contemptible pranks against the recruit, and he was given a walking tour with a blivet of wood on his shoulder for a whole afternoon for his pains. This stopped the imposition, and Meriwether fell into the contempt of not being noticed. This lasted till we were fighting the Modocs in the lava beds in 1871.

Little Meriwether didn't like fighting at all, that was plain, for the color would rush from his cheeks whenever a bullet whistled too close to his delicate ear. But I noticed that he would grit his teeth and seemed to be resolutely fighting himself to keep his slender body up to its work. One afternoon we were having an especially hot fight, keeping up a steady fire on the Modocs and receiving as good as we shot from behind a natural breastwork of lava, when Meriwether came crawling toward me on all fours with an expression of hopeless despair in his face.

"What is it?" I asked anxiously, fearing something had gone wrong. "Conover—his hit?"

"Well?" I could see nothing remarkable in Conover being hit when one-third the men were in the same fix. "He wants water."

"Get him some from a canteen." "There's not a drop to be found anywhere."

"Well, then, he must go dry, for the only water near is down there in that crevice, and no one can go there without getting shot."

"He's suffering dreadfully."

"Go back to your place, you little fool," I said sharply, remembering what he had suffered at Conover's hands.

He crawled back, and I dismissed the matter from my mind.

Presently I saw a sight that filled me with astonishment. Meriwether was running, canteen in hand, for the crevice containing water. Bullets sang about him like buzzing flies. Whether or not he was hit, he kept on and in a few seconds sank out of sight in the crevice.

I had no right to do so, for there were two commissioned officers with the company; but, singing out to those beside me to follow, I jumped up and made a dash for a rise in the lava just beyond the crevice. It was no use. The fire was too hot, and the men would not leave their position. I was shot in the leg and sank into a hollow place, where I was comparatively safe. I was thinking of little Meriwether and wondering how he would get back with the water for the man who had injured him when I heard a shout and, looking toward our fellows, saw him plunge head foremost in among them.

Night was well on before I dared leave my position and go back to the command. The first thing I saw was Meriwether lying on his back, white as a sheet and motionless. One of his former tormentors was bending over him, and several others were leaning on the muzzles of their muskets, looking down on him anxiously. Meriwether turned his eyes to me, and I presumed he was about to ask me that dreaded question "Shall I live?" when he said:

"That was a very kind thing of you to come after me. How about Conover? Was there all the water he wanted? I couldn't get much, for there wasn't much to get."

I tried to say something gentle to him, but it wasn't in me.

"Oh, stop that," I said, turning away. "You owe Conover nothing."

Later, when the captain asked me for the names of those who were to be mentioned for conspicuous bravery, I told him there was but one and his name was Meriwether. But the poor fellow did not live to read the order.

PHILIP T. BAKER.

B. & O. EXCURSIONS

The Baltimore & Ohio Railroad and the Civil War, 1861-1865.

Excursion tickets are sold every Sunday between all local stations west of the Ohio river on the Baltimore & Ohio at rate of one fare for the round trip, good going and returning on date of sale only.

COLORADO, UTAH, SOUTH DAKOTA.—The Baltimore & Ohio Railroad Co. will sell low rate excursion tickets to points in Colorado, Utah and South Dakota during June, July, August and September.

SOUTH AND SOUTH-EAST.—On first and third Tuesdays of June, July, August, September and October, 1902, the Baltimore & Ohio Railroad will sell Homeseekers' Excursion tickets at greatly reduced rates to points in the South and Southeast.

MOUNTAIN LAKE PARK.—July 25 to August 28, inclusive, the Baltimore & Ohio Railroad company will sell excursion tickets from all local stations west of the Ohio river to Mountain Lake Park, Md., at rate of one fare for the round trip, account Women's Foreign Missionary Society, Chautauqua Meeting and National Archery Association. Tickets will be good for return until September 1, 1902.

CALIFORNIA.—July 28 and 29 and August 1 to 10, inclusive, the Baltimore & Ohio Railroad company will sell low rate excursion tickets to San Francisco and Los Angeles, Cal., account Biennial Meeting, Knights of Pythias, good for return until September 30, 1902.

Half Rates to Put-in-Bay, Ohio, via the Baltimore & Ohio Railroad August 11 to 14 inclusive, the Baltimore & Ohio railroad company will sell excursion tickets from all local stations west of the Ohio river to Put-in-Bay, Ohio, at rate of one fare for the round trip, account Knights of Columbus. Tickets will be good for return until August 18, 1902.

The Baltimore & Ohio railroad follows the Potomac river for nearly one hundred and fifty miles. The Potomac River, indelibly linked with the Fortunes of War.

"All quiet along the Potomac tonight."

Except now and then a stray picket and fro,

By a rifleman laid in the thicket.

But is was not always quiet along the Potomac. For four long years the valley through which the river winds and which now is dream of peace and prosperity, was hotly contested ground for the North and South.

The Baltimore and Ohio railroad follows the famous stream for nearly one hundred and fifty miles—from Pocomoke, W. Va., to Washington Junction, Maryland—and both river junction were crossed and recrossed time and again, by the contending armies. The battles of Antietam, South Mountain, Monocacy and Gettysburg were all fought north of the main line of the B. & O. Harner's Ferry, picturesque and beautiful, lies on the sharp northeastern point of West Virginia, whose rockbound sides guide the gentle Shenandoah to its confluence with the Potomac.

Send stamp for Battlefield Map. D. B. Martin, Mgr. Pas'r Traffic, Baltimore, Md. B. N. Austin, Gen'l Agent, Chicago, Ill.

NORFOLK, VA.—Sept. 3, 4 and 5, the Baltimore & Ohio Railroad company will sell excursion tickets from all local stations west of the Ohio River to Norfolk, Va., at rate of one fare for the round trip, account Great Council Improved Order of Red Men. Tickets will be good for return until September 16, 1902.

SANDUSKY.—Sept. 1 and 2, the Baltimore & Ohio Railroad company will sell excursion tickets from all local stations in Ohio to Sandusky, Ohio, at rate of one fare for the round trip, account Democratic State Convention of Ohio. Tickets will be good for return until Sept. 4, 1902.

ASHEVILLE, N. C.—Aug. 16, 17 and 18 the Baltimore & Ohio Railroad Co. will sell low rate excursion tickets to Asheville, N. C., account Society of American Florists and Ornamental Horticulturists, good for return until August 25, 1902.

IMMUNE COTTONSEED.

Experiments by the Department of Agriculture to Prevent "Wilt."

A special to the Boston Transcript from Valdosta, Ga., where the United States department of agriculture has been making experiments to see if "wilt" or "black heart" could not be prevented in cotton, says that the result is that seed have been obtained that are totally immune to this disease.

The process has been on the line of "breeding," the seed being carried up to the highest quality of healthfulness by careful cultivation. Professor Orton says that the experiments show that the only hope of the farmers in getting rid of the disease where it has once got a foothold is by the use of immune seed. The disease is said to be of fungus origin and remains in the soil to make its appearance after seven years, the land having been planted with other crops in the meantime.

Professor Orton regards "black heart" as the deadliest enemy of cotton and one with which farmers cannot afford to trifle. If allowed to go unchecked, he thinks it will in a few years ravish the sea island cotton fields as it has the upland fields in some sections of Alabama and other cotton growing states.

Professor Orton also had an experiment in planting Egyptian cotton, which was tried in this section this year, but the result leads to the conclusion that the Egyptian staple is not adapted to the soil and climate of this section. There appears to be too much moisture, producing a large, woody plant with little fruit upon it. The tests that have been made in Texas and along the Mexican border are said to have been much more satisfactory.

RAILWAY AMBULANCE CARS.

Seventy-seven Stations in Germany to be Equipped With Them.

To insure immediate aid to persons injured in train wrecks the state railway administration in Germany has decided to maintain ambulance cars at seventy-seven of the principal stations throughout the country, says a Berlin dispatch to the New York Times. The cars will contain a full hospital equipment, including operating tables and beds, calculated particularly to render everything necessary in the direction of first relief.

Each car is to be in charge of a medical officer, while all railway employees will be required to be trained in the performance of first aid duties. The cars will be so located that none will be more than an hour and a half away from a hospital, thus rendering quick transportation for victims who require serious attention.

Within the past year there have been an unusual number of railway fatalities in Germany due to the inaccessibility of medical facilities.

New Hay Fever Cure.

The nasal passages are said to have a surface area of not less than twenty square inches. A new preventive of hay fever is rubbing with surgical cotton twice daily of as much of this inner surface, or mucous membrane, as can be reached. The massage hardens the membrane, lessening its oversensitiveness.

STILL FURTHER PROOF

Where Doctor's Fail to Cure Woman's Ills, Lydia E. Pinkham's Vegetable Compound Succeeds.

Mrs. Pauline Judson, Secretary Schermerhorn Golf Club, Brooklyn, N. Y., Writes On This Subject.

A woman best understands a woman's ills. How true this is, and how well proven in Mrs. Judson's letter which follows.

How many thousands of letters Mrs. Pinkham is constantly receiving from women recounting their troubles, and sometimes years of treatment by physicians for some derangement of the female organs without obtaining a cure, or even relief from their suffering, and how eventually they have been cured by her advice or medicine, or both, is almost beyond belief.

Just think how Mrs. Judson was treated for months without success, and how quickly she was cured by Lydia E. Pinkham's Vegetable Compound and Sanative Wash.

Is there a sick woman on earth who will doubt the power of Lydia E. Pinkham's Vegetable Compound over women's diseases in the face of such proof? Surely not.

Any woman who is troubled with any form of female ills, painful menstruation, backache, dizziness, bearing down feelings, ovarian inflammation or any womb trouble should hasten to procure Lydia E. Pinkham's Vegetable Compound, for no other medicine is so universally recommended by prominent women of all classes.

MRS. PAULINE JUDSON.

"DEAR MRS. PINKHAM:—Soon after my marriage two years ago I found myself in constant pain. The doctor said my womb was turned, and this caused the pain, with considerable inflammation. He prescribed for me for four months, when my husband became impatient because I grew worse instead of better, and in speaking to the druggist he advised him to get Lydia E. Pinkham's Vegetable Compound and Sanative Wash. How I wish I had taken that at first; it would have saved me weeks of suffering. It took three long months to restore me, but it is a happy relief, and we are both most grateful to you. Your Compound has brought joy to our home and health to me."—Mrs. PAULINE JUDSON, 47 Hoyt St., Brooklyn, N. Y.

It would seem by this statement that women would save time and much sickness if they would get Lydia E. Pinkham's Vegetable Compound at once. It might as well be understood first as last that no medicine in the world is equal to it, and no druggists' substitute will be satisfactory. Get it to-day; don't wait.

\$5000 REWARD.—We have deposited with the National City Bank of New York, \$5000, which will be paid to any person who can find that the above testimonial letter is not genuine, or was published before obtaining the writer's special permission. Lydia E. Pinkham Medicine Co., Lynn, Mass.

CROWDS

(Continued from page 1.)

ments lined up from southwest to northeast, in a single line, as many companies wide as there were in the regiments.

In the "line of masses" formation each regiment lined up in battalion line, three companies wide and four companies deep. After the review they changed direction by the left flank and passed the Governor in review, taking full company distance, making a most inspiring and beautiful picture.

Friday night the first call for review was sounded at 5 o'clock, and in fifteen minutes all was bustle, the regiments being ready soon after to march to the parade ground.

The battalion of Engineers entered the parade ground from the northeast and marched across the field took up their position on the right or west of the line.

The Eighth regiment followed, then the Fifth, Seventh and Fourth. After all had taken their positions, there was a flourish of trumpets given always for the President, Governor of a State, or commanding general, and Governor Nash, General Spears, and General Dick, with their staffs, rode toward the west of the line, where stood the Engineers in perfect formation. The Engineers band played "Hail to the Chief," until the reviewing party passed their front, when the air was taken up by the band of the Eighth, then the band of the Fifth, Seventh and Fourth, in succession, as the distinguished party passed in their front. At the east end of the line the party passed down in the rear at almost a gallop. The regiments then passed in review and the most impressive military maneuver ever executed in Newark was at an end.

The Fifth regiment marched back to quarters in battalion front to a lively quickstep, and received generous applause as they crossed the octagon.

COST

Of Two Brigade Encampments Has Been About \$72,000—Advantages of Division Camp

Camp McKinley, Aug. 9.—It is estimated that the entire cost of the two division encampments is about \$72,000. A large part of the money for provisions and supplies has been spent in Newark and the officers, men and visitors, who have been in the city have all left many dollars behind them so that Newark has materially profited by the presence of the troops and at the same time the city has been given much advertising which will result in further profit to this community.

There is no longer any question that next year will see the entire Ohio National Guard here in one body as a division encampment. Governor Nash said this morning that the officers are agreed that a division encampment shall be held, providing arrangements can be made for the use of 90 acres belonging to Richard Shide adjoining the camp ground and it is altogether probable that this can be arranged satisfactorily.

This encampment will be the biggest held in Ohio for many years and will naturally attract a large body of visitors. It will bring thousands of dollars to the city and will be highly profitable to the town. A division encampment will necessitate better street car service and more telephone lines to the big camp, and in addition to a telephone exchange with several lines running to the city a telephone station will probably be maintained.

This year only one telephone line has been run to the camp ground and owing to the hundreds of long distance messages sent to and from the camp, the line has been very often "busy" when local people have wanted to use it. A division camp means a camp of nearly 6000 soldiers.

SEVENTH REGIMENT NEWS

The officer of the day in the Seventh regiment today is Capt. Patterson of Company K and the officers of the guard are Lieuts. Teal of Company H of New Lexington, and Henderson, Co. G of Manchester.

Mrs. Drake, wife of Major Surgeon Drake of the Seventh, is a guest in camp today.

Mrs. Keller and Miss Agnes Lee Smith of Ironton, are visitors in camp today.

Mrs. Sibley, wife of the regimental quartermaster is visiting in the city.

and calls on her husband at camp every day.

The band of the regiment is practicing hard every day and the martial music can be heard almost any time during the day.

Late this afternoon there will be a basketball game between the Newark team and a team from Company A of Zanesville. The company team is quite well known in Newark and no doubt the game will be a good one.

TO PAY TROOPS.

The troops of the Second brigade will be paid Sunday at Newark, Chief Clerk A. L. Carman will go over to the capital of Licking county Saturday with the necessary funds and the vouchers.—Columbus Press.

EIGHTH REGIMENT.

In the Eighth regiment today the officer of the day is Captain Bernard of Co. D, and the officers of the guard are Lieuts. Robinson of Co. H, and Cathon of A.

ARRESTS AT AKRON.

Akron, Ohio, Aug. 9.—Seven members of the Eighth regiment, O. N. G. of this city, who did not accompany the regiment to camp at Newark, were taken there by a policeman Friday.

Chief of Police Durkin received orders to place the men under arrest and bring them to Camp McKinley. The young men are Louis Grother, H. S. Quine, Harry Hires, Ernest Drumbaugh, John Vernosky, George Wyatt, and Charles Cristensen.

It is understood that all of these men had permission from their commanding officers to remain away from camp, but Colonel Volrath is determined that the men shall be brought to camp. Part of the men are members of Company E, and part of Company F.

FOURTH REGIMENT.

Chaplain John Hewitt left today for Columbus.

Captain Wm. B. Hamill, formerly in command of Co. B, of the Fourth, is the guest of the regiment. The Captain is drumming up S. A. W. V. membership.

Captain Bull of Co. I of Xenia, who has been confined to the Brigade hospital with a fever, is some better, although not yet fit for duty. During the illness of the Captain the company is under the command of Lt. R. P. McLeop.

Col. Jos. D. Potter of "Columbus former Colonel" of the regiment, arrived in camp this noon and will be the guest of the regiment over Sunday.

Harry Bliss, representing the firm of the Gowen Mfg. company of New York City, was the guest of Regimental Commissary Sergeant Charles Schmidt last night.

Co. G made the finest appearance on review last evening of the week, and was highly complimented by the officers.

Chief Trumpeter Werle of the Fourth greatly amused the officers and men of the regiment this morning by appearing in a charming masquerade costume at breakfast time.

The funeral of the late Harvey Colt, father of Col. A. B. Colt, will be held at Columbus, Monday. The officers of the regiment have sent to the Colonel a beautiful floral emblem as a token of their great regard for the venerable father of the Colonel.

Co. I has been somewhat handicapped at this camp on account of having been supplied with bed sacks, but they have managed to sleep every night, although they sometimes have been pretty tired.

At all of the messes there will be extra fine dinners served and the cooks of the different companies are making great preparations for the Sunday meal.

A number of the officers of the regiment visited the Colonel and staff of the Seventh late last evening.

The officer of the day is Captain Abe Newlove and the officers of the guard are Lieuts. McLean of Co. E, and Cott of Co. A.

The detail for guard in the Newark company today is Corporal Davis and Privates Bogardus, Borden, Cady and Freer. Corporal Nehls will report for duty with the brigade guard today.

A large number of the citizens listened with great interest to the beautiful concert given by the Fourth band last evening.

HOW THEY GO

Second Brigade Troops Will Get Away Monday and Early in Afternoon

All Will Be Away.

Camp McKinley, Aug. 9.—The Sec-

ond brigade will break camp on Monday but there will be no simultaneous dropping of tents—a very pretty custom. It will depend entirely on the weather, whether the tentage is left standing, to be taken down by the state, or whether the several commands do this themselves.

Major Krumm, the brigade quartermaster, announced today that the following would be the program for Monday:

The Fourth O. N. G. will strike shortly after mess and at 3 p. m. will leave for Columbus over the Pan Handle railroad, arriving at the capital about 4 p. m. on a special. The Chillicothe company will take the N. & W. for home (from Columbus) at 4:20 p. m. Marion and Delaware will leave at 4:25 over the C. S. & H.; Xenia will take the Pan Handle (as will also London) at 4:10—all from Columbus. Marysville will leave the Union station over the T. & O. C. at 4:30 Monday. Washington C. H. will catch the 1:15 B. & O. at Newark. The Eight's outfit will leave at 11:30 a. m. going to Martel, where they will catch the Erie special. Bucyrus goes home over the T. & O. C. The Engineers leave camp in time to get the 10:30 train at Showman's and will leave Martel at 1:15.

The Fifth Infantry will go to Martel and take train for home with the exception of Painesville and Geneva, that catch the Erie special of the Eighth. Norwalk takes the B. & O. at Newark.

The Seventh will send three companies from Newark, at 1:15 p. m. and the rest will leave about noon.

GENERAL CAMP NEWS.

General Forsythe of Columbus, who is a Brigadier General on the retired list of the United States army, a warm personal friend of Governor Nash, telegraphed the Governor that he would be in Newark at 1 o'clock on Friday morning.

Colonel Hanselman of Gen. Dick's staff was detailed to go to town and meet the General, but owing to a misunderstanding he did not arrive until 3:30 Friday and then came on Buckeye Lake Interurban line. General Forsythe was accompanied from Columbus by Mr. Herman Dennison son of ex-Governor Dennison, and T. F. Lynn.

Governor Nash has a very high regard for General Forsythe's military experience and judgment, and is particularly anxious that he should see the camp and give his impressions.

The Governor and these gentlemen walked over the camp informally and took in every detail. General Forsythe was unqualified in his praise of the location, appointments and work done at the camp.

Governor Nash and Colonel Hanselman Friday were interested spectators at Guard mount in the Fifth regiment. It was done perfectly and received the hearty praise of both men.

Colonel Henry C. Ellison of Governor Nash's staff, was called home on Friday by the serious illness of his wife, in Cleveland.

Colonel Morgan of the Governor's staff, left camp Friday on account of important business engagements at his home in Alliance.

Colonel King of King's Mills, also of the Governor's staff, was also called home on account of business reasons.

All these officers left camp with expressions of regret that they had to leave before the camp was at an end and words of warm praise for the Second brigade's camp.

Colonel W. L. Curry of Marysville, ex-Assistant Adjutant General of Ohio now state pension commissioner, visited camp Friday and paid his respects to Governor Nash and General Dick. Colonel Curry is an old civil war veteran and enjoyed the military spectacle presented by the tented city.

Governor Nash although he disclaims being indisposed during the First Brigade's camp seems to be in a much improved physical condition than when he was here in July. He looks better and his actions are more sprightly. Another thing noticeable at his headquarters is the fact that the Governor is now able to mount his horse gracefully and lightly from the ground.

When he was here last month, the horse was led to a stump and Ohio's chief executive mounted from this undignified eminence, in a manner not altogether graceful.

Friday afternoon Surgeon General E. C. Brush marched the 17 medical officers, on duty at Camp McKinley, to Governor Nash's quarters, where they paid their formal respects to their commander in chief, who in turn expressed his hearty thanks for the efficient work done in the medical de-

partment of the brigade.

Some one remarked that it was a fine looking body of men to which General Brush replied, "Yes, and if the Dick bill passes, the medical department in the way of equipment, will be on a much higher plane. In this bill it is provided that the United States government shall maintain the National Guard medical department in each state, the same as it does its own and provides for an appropriation for this purpose. The bill passed the lower house of Congress at the last session."

Today the officer of the day for the Fifth regiment was Captain Corbett E. Southern, of Company E, Berea, and Lieut. A. W. Thullen of Company H, Youngstown, was officer of the guard.

The Fifth regiment was mustered Friday by Colonel Ames, mustering officer. There were fewer absentees than from any other regiment, and it took less than an hour to muster the entire regiment except the band and headquarters which were mustered after dress parade.

Mrs. Squirr, wife of Captain D. O. Squirr, of Cleveland, was the guest of her husband in camp on Friday.

Mrs. Simpson, wife of Surgeon D. G. Simpson of Warren visited her husband at his quarters in the Fifth on Friday.

Mrs. Latimer, wife of Lieut. Howard Latimer of Company B, Cleveland, and Captain H. B. Williams, wife of Geneva, are expected to spend Sunday in camp with their husbands.

Colonel W. W. Dunnivant of Warren, an honorary member of the Fifth reported at headquarters Friday.

The fifth regiment has the only exclusive officer mess on the grounds which is conducted according to regulations and orders from the commander in chief.

The "F. M. A." a secret society organized by the officers of the Fifth, held a meeting in one of the down town halls, Friday night, and a number of the officers from the other regiments were initiated. The degrees were conferred by General W. C. Hawley of Painesville, State Organizer, who is a guest in camp.

After the brigade review on Friday evening, the Fifth regiment marched back to camp in battalion front and the maneuver was heartily applauded by the large crowd present.

NEWARK BOY'S SCORES.

Camp McKinley, Aug. 9.—Newark's company G made these scores on rifle range: Atherton 13, Crawford 27, Davis 14, Koontz 15, Heisey 13, Corp. Davis 22, Myers 10, Long 25, Hamilton 19, Farmer 14.

RECEPTION—A public reception to men tonight at H. J. Hoover's home 71 Granville street, between 9 and 10 in honor of Governor Nash and others.

OPEN AIR MEETING—Rev. Paul R. Hickok, chaplain of the Fifth regiment, associate pastor of the First Presbyterian church, Cleveland, will address the open air meeting at the old cemetery ground on Sixth street at 6 o'clock Sunday evening.

ABOUT PEOPLE.

Harry Williams of Columbus, was in the city for a short time this morning.

Page Cherry, traveling freight agent of the Baltimore & Ohio railroad, who formerly resided in Newark, was in the city today.

COMING OF MILLENNIUM.

Remarkable Prophecy of an Infant Near Warsaw, in Russia.

"In one year's time there will be a great war between the world powers, and in three years we will witness the coming of the millennium."

This startling prophecy, it is declared, was recently made by a male child only three months old born in a small village near Warsaw, Russia, says a Washington dispatch to the New York Herald. S. Berlin, a Seventh street merchant, received a letter from his father in Russia relating the incident. According to the letter, the mother left the house for a few moments and told her seven-year-old daughter to look after the babe.

For some reason the little girl began to cry, when, according to the letter, she was startled to hear the three-months-old baby address her plainly with the words, "Don't cry; mamma will be back soon."

This unexpected speech scared the girl still more, and she ran out of the house in search of her mother, to whom she related the incident. The mother went to the child and began questioning him, and finally the boy spoke again, saying, "Send for the rabbi."

When the rabbi entered the room, the child refused to speak until he and the rabbi were left alone, and when the rabbi had been cleared, it is said, he gave utterance to the prophecy mentioned.

Soon after Mr. Berlin received his letter with the story of the wonderful child another man in Washington received a letter from a different person relating the same incident as told in the first letter. It is said that the prediction has created great concentration among the Hebrews of Russia. According to the Torah, the millennium is due in about three or four years, and Hebrews consider this prophecy as a verification or reminder of the approaching reign of their race.

Preaching Monkeys.
The author of "The History of Brazil" tells of a species of monkey called "preachers." Every morning and evening these monkeys assemble in the woods. One takes a higher position than the rest and makes a signal with his fore paw. At this signal the others sit around him and listen. When they are all seated, he begins to utter a series of sounds. When he stops these cries, he makes another signal with his paw, and the others cry out until he makes a third signal, upon which they become silent again. This author, Mr. Macgregor, asserts that he was a witness to these preachings.

No Rash Remarks.
"Mrs. McSmith is a very queer widow." "Queer in what way?" "No one has ever heard her say she wouldn't marry the best man that ever lived."—Puck.

They Never Fail.

What Can a Woman Do for a Man?

In Times of Suffering and Critical Illness She Can Honestly Recommend.

PAINE'S Celery Compound

As a Saver of Life and a Banisher of Disease.

Woman's power for good in the home can never be truly estimated. In times of suffering and danger, her judgment and experience are invaluable; her smiles, words of cheer and comfort help to dispel gloom and sadness. The faithful, discerning wife has a full knowledge of the value of Paine's Celery Compound as a banisher of disease; she has noted its wonderful effects and cures; she has faith in its virtues, and recommends it with full confidence. Mr. Rudolph M. Hunter, of the well known Hunter Corporation, Philadelphia, Pa., says:—

"I feel it is but right that I should acknowledge my appreciation of Paine's Celery Compound. That you may understand my appreciation, I might say for nearly twenty years I have continually suffered from neuralgia, poor circulation at night, and general nervous weakness from overwork due to daily labors of from twelve to eighteen hours upon the most intricate and exhausting of brain work. To retire at night meant the worst of headaches and lack of sleep. I received no relief from physicians, and my enormous work upon my electrical inventions and litigations have prevented me taking the rest so much needed. Some time ago I began to take Paine's Celery Compound has done for me what the medical profession could not do. I now work from twelve to fifteen hours daily in peace and comfort, and secure restful sleep."

A GOOD SAVER IS A GOOD SERVER

Those who buy my Home oil and gasoline in the machine-filled and labeled square cans which I loan, not only save 2 and 3 cents a gallon but get the best oil and gasoline made. Stop the wagon or send postal card to C. M. Lines, 160 Wilson st. If

Walther's Peptonized Port strengthens, builds up and cures continually from the first dose. Try it.

Many are fond of tapioca, but dislike the trouble of soaking it. Use Mrs. Austin's Quick Lunch Tapioca. No soaking. dw

NEW LIFE PRESERVER.

Food, a Lamp, a Trumpet and Weapons Can Be Carried in It.

A new life preserver has recently been tested on Lake Geneva, writes the Paris correspondent of the New York World. It is composed of a costume of india rubber, opened at the waist, which can be very rapidly donned. It is waterproof, with several airtight compartments. These can be used as pockets for a lamp, provisions, a trumpet to call for aid and even a weapon for repulsing the attack of dangerous fishes.

Half of the body remains at the surface of the water. The inventor in his life preserver has remained in the water five hours. But that is a mere bagatelle. He intends to pass fifteen days in the sea at Harve.

ALL WERE SAVED.

"For years I suffered such untold misery from Bronchitis," writes J. H. Johnson, of Broughton, Ga., "that often I was unable to work. Then, when everything else failed, I was wholly cured by Dr. King's New Discovery for Consumption. My wife suffered intensely from Asthma, till it cured her, and all our experience goes to show it is the best cure medicine in the world." A trial will convince you it's unrivaled for Throat and Lung diseases. Guaranteed bottles 50c and \$1.00. Trial bottles free at Hall's Drug Store. 8

Valuable Manuscripts.

The two greatest manuscripts in America, according to the Bookman, are the manuscript of the Declaration of Independence, which is in the government archives and which has become illegible, and the life of Benjamin Franklin written by himself. The only manuscript entirely in his own handwriting, which changed hands and was added to a private collection in New York city. The Franklin manuscript was discovered in France some years ago in the possession of the descendants of M. Le Vailland, to whom it had been given by William Temple Franklin, Franklin's grandson.

The largest armor plate ever rolled—106 tons—was made by Krupp in Dusseldorf, Germany, last year.

Care of the Stomach.

At no time of year is it so necessary to be careful of the digestive organs as in summer. Vitality is always at a low ebb during a spell of severe heat, and the stomach needs a tonic. BLOOD WINE is highly recommended, because it aids digestion and gives a normal tone and strength to the whole system. For sale by CITY DRUG STORE

DIRECTORY

OF NEWARK CONTAINS JUST 10,232 NAMES

What is Newark's Population?—Only One More Week of the Big Guessing Contest.

The new city directory for 1902-03 has just been issued by the P. J. Broekhoven Directory company of Columbus. This book contains 10,232 names, exclusive of all firm names, counting husband and wife for one and no names below the age of 17 years having been taken, which is on increase of 502 names over the last directory. A general count from house to house has been taken of all the inhabitants in the city of Newark, and the same can be relied upon for accuracy. The publishers in their prefatory announce that the result will be made public by the Advocate.

The Advocate guessing contest on the population of Newark, June 1, 1902, will close at 9 p. m., Aug. 16, one week from tonight. Anybody is permitted to guess by paying 50 cents in subscription for the Daily Advocate, providing all arrearages are paid. The 50 cents will entitle you to five weeks subscription and a chance to participate in the distribution of \$200. The first prize is \$50, and there are 34 others. See conditions and coupon on another page. Fill out coupon and send or bring it with 50 cents to the Advocate office. If your guess is nearest the correct population figures the Advocate will give you \$50. In case of ties the prizes will be divided. If you don't win the \$50 prize, you may capture one of the 34 others. Be quick, only one more week. One may guess as often as he likes.

KNIGHTS

Arriving in Large Numbers—Smallpox Developed on Train En Route to Frisco—Quarantined.

San Francisco, Aug. 9.—The town today is full of visitors, Knights of Pythias are arriving from all parts of the country for the encampment. There will be a hundred thousand here when the festivities open Monday. A Kokomo, Ind. dispatch says the Kokomo K' of P. excursion and sixty friends enroute to San Francisco were thrown into disorder. Guy Watson, manager of the excursion has the small pox. The train will probably be quarantined at Salt Lake City.

WRESTLING—A wrestling match is to take place tomorrow night at 8 between Soffet and Deitrick in Co. C mess tent, 5th O. N. G., at camp.

AUTOS IN THE DESERT.

Sir Rudolf Stalin Tells of Their Value in Developing the Sudan.

Sir Rudolf Stalin, on his way from Cairo to London recently, passed through Vienna and was there interviewed on the prospects in Sudan, says the New York Times. What he said is commented on at length by the semi-official Austrian organ, particularly the part of the interview dealing with the introduction of motor cars, and Austrian manufacturers are urged to send agents to Cairo. Sir Rudolf said in part:

"Excepting for occasional trading internal disturbances, which are in no sense directed against the government, the Sudan is in a perfectly peaceful condition, with nothing to hinder its agricultural and commercial development. The two most pressing necessities are an extension of the means of communication and a system of irrigation."

"Vast tracts of fertile country and mineral lands are now comparatively valueless because no facilities exist for bringing the products to a market. I believe that the introduction of automobiles would prove highly beneficial. Many parts of the country are already perfectly adapted to such traffic, and where it is necessary roads could be made without great expense."

"Automobiles strongly built and capable of carrying goods in fairly large quantities would afford an excellent substitute for railways at a fraction of cost of the latter. Machines with a high rate of speed would not be required, strength and capacity being the chief essentials."

"With regard to irrigation, the several Engineers are now studying the situation. Apparently there is plenty of water available, hence irrigation works might easily be constructed extensively and successfully. Personally I strongly favor the development of the country on agricultural lines rather than in the direction of mining."

"The soil of the Sudan is exceedingly rich and capable of producing almost anything. Cotton of an excellent medium grade is now being grown, and there is no reason why the Sudan should not furnish large quantities for the foreign markets. Wheat and barley of the highest quality grow freely in addition to such products as indigo and rubber."

WHY SUFFER WITH NERVOUS DYSPEPSIA?

Nervous dyspepsia is a very common trouble nowadays and differs from common, ordinary, every day indigestion, only in the case. Common, old fashioned indigestion comes from over-feeding, hurried eating, failure to chew the food properly—a greasy, fatty, doughy, pasty diet. Nervous Dyspepsia comes from hurry, worry, care, trouble or excess. The stomach nerves are weakened, they fail to regulate the stomach juices; the supply is insufficient; food is not digested; distresses; rest heavy; get sour; repcats, ferment; gas forms; water brash occurs; the stomach becomes irritable, inflamed, painful or burns; you grow irritable, nervous, restless, morose, sullen, can't sleep, are hungry and afraid to eat, lose weight and strength. It is here Dr. A. W. Chase's Nerve Pills come as a blessing—giving to the nerves a strength they lack, and through them to the stomach the power to again properly handle and digest the food; to the system generally a new found strength and vigor—a condition that can be brought about by no other medicine known to science.

SOUTH FIFTH ST.

Mrs. T. S. Weekley of South Fifth street, Newark, Ohio, says: "Dr. A. W. Chase's Nerve Pills are all right. My digestion was weak—food did not digest and distressed after eating. This made me nervous and dull. I was told the Nerve Pills would cure this and they did. The digestion—stomach and nerves, are strong again and I am glad I got the medicine at Bricker's Drug Store."

Anerve Tonic never Equaled

143 SOUTH SIXTH ST.

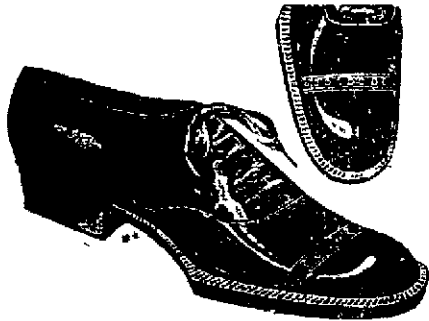

Mrs. W. Bates of 143 South Sixth street, Newark, Ohio, says: "Dr. A. W. Chase's Nerve Pills I know are excellent because they made my nerves steady—gave me strength and good restful sleep, three things I needed badly. The action was easy and rapid and more than satisfactory and I am right glad in the face of the fine results I obtained that C. T. Blaker of the City Drug Store called my attention to the medicine."

BEWARE OF IMITATIONS. Signature and portrait of Dr. A. W. Chase on each box of the genuine. For sale by dealers, 50 cents a box, or Dr. A. W. Chase Medicine Co., No. 257 Washington St., Buffalo, N. Y.

RESOLUTION.

To Improve North Fourth Street from Charles Street to Log Pond Run, Thence East in an alley along said Log Pond Run to Elm Street.

Be it resolved by the City Council of the City of Newark, Ohio, two-thirds of the whole number of members elected thereto concurring therein,

That it is deemed necessary by said City and this Council hereby declares that it is necessary to improve North Fourth street in said City from Charles street south to Log Pond Run; thence east in an alley along said Log Pond Run to Elm street, by excavating, grading, and constructing a sewer, with necessary catch-basins, house connections, manholes, etc., in said street and alley, between said points in accordance with the plans, profiles, estimates and specifications relating to said improvement now on file at the office of the City Clerk.

That the cost and expense of said improvement, less the cost and expense of improving street, alley or highway intersections, and less one-fifth of the entire cost and expense thereof, shall be assessed upon the lots and lands abutting thereon in the manner Council may specify in the ordinance for said improvement; said assessments shall be payable in ten semi-annual installments, and bonds shall be issued in anticipation of the collection thereof.

That the City Clerk is hereby directed to cause this resolution to be published for two consecutive weeks in a newspaper published and of general circulation in the corporation.

All persons claiming damages from the foregoing improvement must file their claims therefor in the office of the City Clerk within four weeks from the first publication of this resolution.

Passed August 4, 1902.

Hand Kissing Revived.

A number of Parisian society women have made up their minds to revive the custom of hand kissing and have decreed that gentlemen visitors to their drawing rooms shall kiss the lady's hand. The courtly old custom of hand kissing needs to be practiced with discretion if offense is to be avoided, for there are many degrees of intimacy implied in the way it is done, says Home Notes. The kiss planted on the finger tips expresses respectful homage, the kiss planted on the palm of the hand a decidedly warmer feeling, while that on the wrist may be supposed to show a considerable amount of affection.

Advocate Want Ads., page 6.

Thin, pale cheeks, soreness of the chest, failing of the lungs, loss of flesh emaciated and flabby muscles—all conditions that indicate lack of vitality, lack of nerve force, lack of healthy blood, are remedied by Hagee's Cordial of Cod Liver Oil with Hypophosphites of Lime and Soda, a thin, delicate fluid, without grease, that is digested at once and perfectly assimilated. It gives relish for more food and vigor to the whole system. 8

AMUSEMENTS.

Next week will be a banner one at Idlewild. The "Cycle Whirl" will be a big outside attraction and the bill for the casino is of an extra quality.

opened by James A. Dunn, the well known mimic and followed by Mabel and Dorothy Goodwin, the comedienne, booked as the brightest thing in vaudeville; Douglas and Ford, extraordinary dancers, late features of the Texas Steer Company. After the intermission Lawrence Crane entertains with his comedy magic. He is known as the Irish mystery. The bill is closed by Manley and Rose in their comedy sketch, "Young Sleuth."

When Messrs. Goodhue and Kellogg decided to send their now famous comedy, "Hello Bill," on its tour, they spent considerable time and thought in the selection of a comedian for the leading role of William Fuller, which has been pronounced one of the strongest parts ever written for a comedian, and which requires an artist of great ability to properly interpret its many sided humor. After looking over the available market very carefully, they came to the conclusion that nobody would fill the requirements better than Harry Corson Clarke probably the best known comedian on the American stage today, and who is an especial favorite in this city. Although Mr. Clarke had practically made arrangements for his annual starring tour this season, he was induced to abandon it for this season only, and it is consequently announced that he will appear at the Auditorium next Wednesday, August 13, when "Hello Bill" will make its first appearance in this city. Mr. Clarke is said to have made the greatest hit of his professional career as William Fuller, and local theatre goers can be assured of a positive treat.

ROBINSON'S CIRCUS.

This wonderful spectacle has a breadth of effects which surprises and delights. Its gorgeous processions and splendid ballets are incomparable, and nothing so vast or imposing has ever been seen in this country before. We gaze upon the ancient city of Jerusalem and the Temple of Solomon animated with life and glowing with color. It is no mere artificial show, but a vivid and vast realization of life in the time of Solomon. The scenes are beguiled by its reality as well as its surpassing beauty and the perfection of details. At Newark, August 12.

Sour stomach, sick headache and dizziness, Walther's Peptonized Port cures all in a few doses. Fact.

Birds' Eggs Too Much For Science.

It is not often that science acknowledges herself at fault in an apparently simple matter, but she frankly does so in regard to the color and marking of a large proportion of birds' eggs. A reason there must be for their infinite diversity; it cannot be an aesthetic one, and all we can say with any confidence is that the ever pervading instinct of distrust is probably exhibited in eggshells as in more important things, and the main idea in their scheme of coloration has been the securing of safety from many enemies by harmonizing them with their surroundings. But it is a scheme full of perplexing exceptions, which any one can study for himself.—Pall Mall Gazette.

ABOUT PEOPLE

Items Picked Up Here and There Telling of Your Acquaintances Coming and Going.

Milo Simpson is in Utica today.

Harrold C. Franklin spent Friday with friends in Mt. Vernon.

Harry Rosell made a business trip to Pataskala today.

Mr. and Mrs. Crom Brown spent Friday at Avondale.

Mrs. Thomas Woods of Columbus, is visiting friends in the city.

William O'Bannon left for Burlington, Kansas, today.

Mr. and Mrs. John Cogley, have returned from a trip to Atlantic City and the East.

Miss Nellie Boyer of Lancaster, is the guest of her aunt, Mrs. John Parker, at her home on Hoover street.

M. W. Miller and wife left this morning on a pleasure trip to Cleveland and Canada.

Miss Olive Orr of Brownsville, is visiting Miss Iva Morgan of North Seventh street.

Mrs. Helen Franklin and daughter, Miss Lillian, left for Atlantic City Friday evening.

W. C. Alspach and family are spending a week with friends near Black Lick.

Frank Bourner, C. M. Martin, Ray Corbel and G. M. Stickle are camping at Black Hand.

John Eshelman and James Rogers of the North End, spent Friday at Black Hand.

Mrs. H. H. Leist left for Pittsburg today where she expects to make her future home.

Mr. and Mrs. F. C. Maranville of Wyoming street, is spending a few days with relatives in Fostoria.

Ralph Ohlen of Columbus, is visiting at the home of Mr. Chas. Diebold of South Fifth street.

Raymond Burch and Nesbit Brown left for Sandusky where they will spend several days.

N. C. Sherburne, State Deputy for the Modern Woodmen of America, is in Toledo on business.

Mr. and Mrs. D. W. Matticks, Mrs. George H. Totten and Mrs. Dr. Farquhar will spend Sunday with relatives in Zanesville.

Mr. Will Blood and Miss Lucy Blood left today for Ruggles' Beach on Lake Erie for a two weeks' outing.

Henry Whitlinger of Delaware, a former well known B. & O. fireman of this place, has been visiting in the city for the past two days.

Mrs. Thomas D. Bird of Washington, C. H., is visiting her niece, Mrs. Kerr, at her home on Chestnut street, for a few days.

John Zahner and sons John and Frank, and daughter, Miss Anna, left for Prazesburg this morning to attend the funeral of a relative.

Wm. Ritter of Columbus, was in the city Friday, and was the guest of his friend, Dennis Foley, of the Central Fire department.

Murry Cummings, yard foreman at the Everett glass works, and his family, are spending a week with Mr. Cummings' father, near Jacksonport.

The Misses Mamie and Lenora Lane of Cincinnati, Miss Florence Ramey and Carl Ramey of Centerburg are visiting at the home of their uncle, Cliff Hawkins on Elizabeth street.

James Shaw and Oscar Morgan two well known young tilters, left last night for a five days' trip up the lakes. They will stop at Toledo, Bass Island, and Detroit, Mich.

Mrs. F. A. King, who has been visiting her parents, Mr. and Mrs. F. C. King, at their home, 202 Granville street, for the past week, returned to her home in Laurel, Mich., this morning.

John Doughdy, foreman of the furnace department of the E. H. Everett glass works, and family, who have been spending the summer in New Jersey, returned home last night.

GUESSING CONTEST.

The Advocate's guessing contest closes at 9 p. m. Saturday night August 16. Cash prizes for the best guessers on the population of Newark. It costs nothing to guess. See conditions and coupon on another page.

The Nile mud which renders Egypt a habitable country is said to bear a striking resemblance to that which every season is brought down by the Missouri.

RAILROAD NEWS

James F. Sasser, a well known machinist in the employ of the B. & O. had the misfortune to have one of his feet very badly injured while at work, and is off duty in consequence.

Brakeman E. H. Tudor who has been off duty with a badly injured arm and knee, sustained in the wreck at Glencoe a few days ago, is somewhat better at this writing and hopes to be able to be out again in a few days.

A. B. Tucker has given a position as brakeman on the B. & O. and has been assigned to work on the C. O. division.

Thomas Graff, an apprentice in the machinery department, injured one of his fingers while at work and is unable to work.

Harry Howard, a machinist, residing at 159 East Main street, had the misfortune to have one of his eyes badly injured by a small piece of steel flying from a lathe.

Richard H. Harrison a B. & O. car

SOZODONT

STANDARD FOR FIFTY YEARS!

New Size, 25c.

"You identify it by my standard. Have used it myself for a number of years and freely recommend it to my patients. I have found it especially useful in treatment of erosion at the neck of teeth. You may use my name as an endorser of Sozodont as the very best dentifrice on the market."

JAMES J. COOPER, D.D.S., Rochester, N. Y., April 10, 1900.

Sozodont cleanses the teeth and purifies the mouth. Used in conjunction with Sozodont TOOTH POWDER it makes an ideal dentifrice. Each, 25c.; large sizes together 75c.; at the stores or by mail for the price. Substitutes should be declined.

HALL & RUCKEL, New York.

dentist, is quite sick at his home, 292 East Main street.

J. W. Hill a helper at the shops, is sick at his home, 229 Race street.

L. H. Hatfield, a machinist is quite sick at his home, 54 Summit street.

TO BE CELEBRATED BY NEWARK TRADES UNION

And Labor Council—A Statement from the Amusement Committee for Labor Day.

To the citizens, merchants, business men and the public in general, the Amusement Committee of the Newark Trades Council wishes to extend thanks for their liberal donations, and for the advertising in the official program for Labor Day.

The Newark Trades Union and Labor Council is the representative of over seven thousand Newark union workmen, and it was the voice of the various local unions, through the Trades Council meeting, that after the parade in the city on Labor Day, an elaborate program of amusement should be carried out at Idlewild park, as horse-racing, etc. could not be held in the city.

The park is a large and comfortable place to go and witness the free attractions which have cost the Trades Council quite a sum of money, and we believe, as the stores will be closed on this day, all citizens and business men of Newark should give all the support possible to Newark Trades Union and Labor Council in making this event a grand success.

Again we wish to thank all and say that the Labor Day celebration will positively be held at no other place than Idlewild.

We guarantee the best program ever carried out at any previous Labor Day demonstration. (Signed.)

FRANK S. NEIGHBOR, A. S. DONALDSON, W. S. COEN, FRANK BARNHouser, EDWARD GRAFT, Amusement Committee.

Appeal from Builders' Council.

At a special meeting held last night it was resolved that all trades concerned or affiliated with the Builders' Trades Council would celebrate Labor Day in the city. If this occasion is to be a benefit for the business men we think it a proper place to hold it, and we expect some little support from the business men to help defray the expenses of getting a good band for that day, and we have appointed a committee to call on the good people for a little help. Our committee consists of or represents seven different trades, as follows: V. H. Ewing, G. S. McFarland, W. J. Cooper, Sam Perks and Sam Hupp. This committee will act on program and have charge of the entire arrangements and we respectfully ask the different crafts to represent their trades with wagons and fan-tastics and represent the Builders' Trades Council in a division by themselves, in the parade of the day. We don't ask any man to stay away from the park if he wants to go.

We expect to have our headquarters in Music Hall, which is headed by the Consumers' Brewing Company for that occasion. (Signed Officially.)

SAMUEL HUPP, Secretary B. T. C.

Trades' Council Meeting.

There will be a regular meeting of Newark Trades' Union and Labor Council Sunday afternoon at 2 o'clock. Every delegate should be present at this meeting, as special and very important business will be transacted.

The efforts of the German Cement Syndicate to control the production and to regulate the prices of cement have failed, and the syndicates have been dissolved.

D. M. KELLER, Clerk of Board of Education, Aug. 6-7-9-12-14-16

WANTS

3 Lines 3 Times 25 cents

FOR RENT.

For Rent—8-room house, with gas and other conveniences on South Second street. Enquire at 142 S. Second street. 8-9-13t*

The price bid must be on the ton, and the kind of coal bid on named. All bids must be accompanied by a guarantee that a

A FATAL MISTAKE

Is Often Made by the Wilest of New-
ark People.

It's a fatal mistake to neglect back
ache.

Backache is the first symptom of
kidney ills.

Serious complications follow.

Doan's Kidney Pills cure them
promptly.

Don't delay until too late.

Until it become diabetes—Bright's dis-
ease.

Read what a Newark citizen says:

J. W. Lippencott, No. 83 Chestnut
street, says: "I was troubled a good
deal with rheumatism and a pain
right through my back more like the
thrill of a sharp knife than anything
else I can compare it to. I started
using Doan's Kidney Pills sold at
Crayton's drug store. Their effect
was really wonderful. They drove
away the pain out of both of my
sides; there was not a trace of it
left. I could stoop at will, lift weight,
yet feel as supple as ever I felt."

For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,
N. Y., sole agents for the U. S. Re-
member the name—Doan's—and take
no other. 109

STORY OF THE STODDARDS.

How the Post's Wife Interrupted an
Early Morning Luncheon.

Dr. Stimson tells a story of the Stod-
dards which loses nothing by the doc-
tor's telling, says the New York Times.
Every one who knows him at all
knows that it is possible for Richard
Henry Stoddard to add emphasis to
his conversation when literary exigen-
cies seem to require it. His brilliant
wife, Elizabeth, who recently died, con-
scientiously "blue penciled" him for
many years. One night several men
of intellectual caliber and irregular
habits dropped into Mr. Stoddard's to
have a chat. It was very late and Mrs.
Stoddard had retired. The visitors
talked and smoked and talked again,
until somewhere around 2 o'clock in
the morning they began to feel hun-
gry. None of the household but Mr.
Stoddard was up, and it devolved upon
him to find something to eat.

After a search the only thing he
found was a can of sardines. He
stood in the library still talking with
the assembled two or three and trying
to pry open the tin box with his pocket
knife. The operation was not as suc-
cessful as he wished, and while he
talked he paused to express his feel-
ings. The conversation was progress-
ing somewhat after this fashion:

"I thought on that occasion—if he
had only—if only things had"—each
pause being punctuated vigorously, the
last of which was more explosive than
the rest.

And just at this point a feminine
voice called admonishingly from the
above stairs:

"Richard, what are you doing?"

"I am trying to open this box of sar-
dines," came the reply.

"But what are you doing it with?"

"My jackknife," said Stoddard.

"I thought you were not opening it
with prayer," said she.

HOME FOR INVENTORS.

Place For Those Needing Help to Be
Founded at West Medford, Mass.

Thomas Alva Edison, John D. Rock-
efeller, George Westinghouse and a
number of other inventors, or men in-
terested in inventions, will be invited
in a short time to interest themselves
in helping to establish the first home
in America for indigent inventors—
men who have been overcome by the
weight of years and by poverty at the
same time, says a special dispatch
from Boston to the New York Times.
The home will be established on Canal
street, West Medford, Mass., unless
present plans fail. A large dwelling,
known to history as the Old Mansion
House, has been practically transfer-
red to a company headed by J. Dana
Bickford, a well known inventor of
Vermont and New Hampshire.

Mr. Bickford says that the work of
establishing the home will be pushed
ahead with all possible speed. He
says that approximately \$20,000 in
reality has been turned over to his
company already and that copies of a
circular letter to America's captains of
industry will be sent throughout the
country. This letter will outline the
plan and contain a request for cash
endowments.

"We shall have," Mr. Bickford said,
"in connection with this home a work-
shop or laboratory where the inmates
may spend their time developing their
ideas. If it should happen that some-
thing of value is devised, the com-
pany in charge of the home would im-
mediately put it upon the market, and
the profits would go in part to the
company, but largely to the home."

"Stonevill" Jackson's Baptism.
Robert E. Lee and Thomas Jonathan
("Stonewall") Jackson were once sta-
tioned at Fort Hamilton, New York
harbor, the former while it was being
built. Jackson was baptized at old St.
John's church at Fort Hamilton, and
the records contain the following en-
try: "On Sunday, 20th of April, 1849,
I baptized Thomas Jonathan Jackson,
major in the United States army; spon-
sors, Colonels Taylor and Dimmick,
also of the army." The baptismal font
used for this ceremony is still pre-
served.—New Orleans Times-Democrat.

PROFIT IN SILK RAISING

Steps Taken to Encourage the
Industry in America.

THE RULE OF CULTURE IS SIMPLE

Secretary Wilson Claims That Much
of the Domestic Supply Could Be
Raised by the Wives and Daugh-
ters of Farmers—How European
Peasants Are Aided by the Industry.

Secretary Wilson has secured an ap-
propriation of \$10,000 from congress
for the purpose of making experiments
in the raising of silkworms and the
production of raw silk, says William
E. Curtis, the Washington correspond-
ent of the Chicago Record-Herald. We
are now importing about \$45,000,000
worth of raw silk annually, and Mr.
Wilson thinks that it is possible for us
to raise a good deal of the supply in
our own country if the wives and
daughters of the farmers and people
who live in the villages will take up
the industry. It is particularly suit-
able for women and children, and the
wives and daughters on the farms and
in the villages, by spending a little
time every day, might earn a liberal
supply of pin money without inter-
fering with their household duties or
their education or their pleasure. In
France not less than 150,000 families
are engaged in the cultivation of silk
without interference with their other
duties. In Italy nearly as many of the
peasants are engaged in the same in-
dustry. In that way the girls earn
and save money for their marriage
dowries. Silk raising is simple enough
for any one of ordinary intelligence to
carry on. It is no more difficult than
keeping chickens or bees, and the
profits are very much larger.

There have been many attempts,
however, to introduce silk culture into
the United States, but they have al-
ways failed because other crops have
paid better and it has never been nec-
essary for the women and children of
our farm population to earn their own
living. They have always been sup-
ported by their fathers and brothers.

As early as 1805 King James I. of
England introduced silkworms into
Virginia, which accounts for the mul-
berry trees around Williamsburg and
on the old plantations of the Rappa-
hannock and the James. It didn't
pay. Tobacco and cotton were much
more profitable crops. For the same
reason a similar experiment was aban-
doned in New England the latter part
of the eighteenth century.

There is no question as to the ability
to raise silk wherever the mulberry
tree will grow, and it will thrive any-
where between the gulf and the great
lakes and the Atlantic ocean and the
arid plains. But the worms require a
great deal of attention and detailed
work, which the American people are
not accustomed to perform. In Japan,
China, France, Italy, Switzerland, Tur-
key and other countries children are
expected to look after the silkworms
under the direction of their mothers.
In those countries even the little ones
are always expected to pay their share
of the household expenses and carry
their share of the load. The children
of America have not yet been reduced
to that necessity, although no doubt it
would be a good thing for them.

Secretary Wilson thinks that silk
raising ought to be introduced into
the south because the climate is espe-
cially adapted for it and the colored
women and children could earn a good
deal of money that way.

The census has disclosed some very
interesting and surprising information
concerning the manufacture of silk in
the United States and shows that we
are second to France only in the an-
nual value of our silk production. Only
a few years ago we were de-
pendent entirely upon France and
Italy, but during the last ten years ev-
ery weave, every article and quality
known to silk manufacturers has been
produced in this country as well and
generally better than in Europe, and
we now furnish practically everything
except a few specialties and novelties
in the way of fancy dress goods, vel-
vets and ribbons, which still come
from France.

During the year 1900, 70 per cent of
the silk dress goods worn in the United
States were manufactured here and 85
per cent of the ribbons. In 1900 we
produced \$107,256,253 worth of silk
goods and imported only \$26,803,549.

There are now in operation in the
United States two and one-half times
as many looms as there were ten years
ago. Some of our mills turn out a
hundred thousand pieces of sixty yards
to the piece every year. More raw
silk is sold annually in New York
than is consumed in France, which is
the largest silk consuming country in
Europe, and the United States now
ranks second to France among the silk
producing nations in the value of silk
goods produced. Connecticut takes the
lead, Massachusetts is second and New
Jersey third.

There is no longer any competition
from abroad in machine twist, sewing
silk and other threads. The manufac-
tures of the United States surpass the
world in that particular. They took
the highest awards at the Paris ex-
position, and their goods bring better
prices than those of any other country,
in Paris, London, Berlin and other
great commercial centers. There is a
great in Berlin where nothing else is
sold but American machine silk, but
it is purchased only by the wealthy
classes, the expensive milliners and
dressmakers and the manufacturers of
high grade gloves, clothing and other
articles for which silk is used. Con-
necticut takes the lead in sewing silks
and produces 47 per cent of the total
product of the United States.

Boys Who Grow Very Tall.

The Norwegian boy has for his next
door neighbors the Laplanders. When
the Norwegian boy grows up, he be-
comes one of the tallest men in the
world, for there is no other race of
men as big as the Norsemen. The Lap-
land boy, on the contrary, never grows
very tall, although he is right next
door geographically to the Norwegians.

Blood Relations.

Willie—Mamma, what does "blood"
relations mean?

Mamma—It means near relations,
Willie.

Willie (after a thoughtful pause)—
Then, mamma, you and papa must be
the bloodiest relations I've got.

The Man That Wakes Me Up.
I tell you what, I love my pa;
I love him most as much as ma;
He's awful good to me an' brings
me lots of toys an' kites an' things.
Why, 'other day, as sure as fate,
He brought me home a tanner pup.
I love my pa, but, oh, I hate
The man that mornin' wakes me up!

My pa he takes me fishin', too,
When he's got nothin' else to do;
I fetched a catfish, too, one day,
Though half way out he got away.
But pa said I might count it, though.
An' somethin' 'bout the lip an' cup.
I dearly love my pa, but, oh,
I hate the man that wakes me up!

I'm always hearin' 'bout the ant
'at gets up early, but I can't
See 'at that's got to do with me;
I ain't no ant, as I can see;
I'm just a boy, 'at likes to lie
A-bed until it's time to sup.
Of course I love my pa, but I
Don't love that man that wakes me up.
—William Wallace Whitelock.

Novel Campaign Scheme.

Ohio Prohibitionists intend to intro-
duce the drama into their campaign.
They plan to hire a tent and a com-
pany of actors to present "Ten Nights
in a Barroom" to audiences all over
the state.

We know that there is nothing on
earth equal to Walther's Peptonized
Port.

SUMMER NOVELTIES.

Dainty Petticoats—Novel Tulle Even-
ing Gowns.

A pretty novelty in petticoats has
white muslin flounces trimmed with
insertion or frillings of lace set on a
foundation of silk. The flounces may
be procured ready made at some stores
and are intended to be tacked on to the
silk slips, from which they can be re-
moved from time to time for washing.

A white tulle dancing frock recently
seen at a summer resort was lavishly
trimmed with tiny coral velvet rib-
bons. The skirt was made with a long
rope of clumsy lace describing vandyke
points. On this the tulle was plated
at intervals, so that its drape was quite
extensive. The lower part of the skirt

LACE AND CHIFFON EVENING GOWN.

was trimmed with narrow coral velvet
ribbon wrought into a scalloped bor-
der.

Another pretty tulle gown was made
of simple black and white, with tiny
chenille dots powdered all over it.

A very smart evening gown is here
shown. It is made of cream lace and
pink chiffon. The lace is cut in a van-
dyke bolero over a full underbust of
the accordion plaited chiffon. This
chiffon is banded with narrow black
lace. The sleeves, which reach exactly
to the elbow, are mainly of the chiffon
banded with the lace and partly cov-
ered with two diamonds of lace joined
to form an upper sleeve.

The skirt is plain, with the exception
of a front and a wide dounce of chif-
fon. A spray of artificial roses deco-
rates the left shoulder.

JUDIC CHOLLET.

A Practical Dilemma.

Mamma had been impressing upon
the little ones the verse, "And unto him
that sniffeth thee on one cheek offer
also the other."

After awhile Paul came in crying.
"Why, what's the matter?" said
mamma.

"Sister hit me," said Paul.
"Have you forgotten about turning
the other cheek?" asked mamma.

"No," said Paul, "but I couldn't; she
hit me in the middle."

Salt and Dogs.

Among certain people there is a
strong idea that nothing is worse for
dogs than salt, but as a matter of fact
when administered in small quantities
it materially benefits them. There is
no doubt, however, that to give dogs or
any other animals broth in which salt
pork or bacon has been boiled would
be almost equivalent to giving them a
dose of poison.

Look Pleasant, Please

Photographer C. C. Harlan, of Eas-
on, O., can do so now, though for
years he couldn't, because he suffered
untold agony from the worst form of
indigestion. All physicians and med-
icines failed to help him until he tried
Electric Bitters, which worked such
wonders for him that he declared they
are a godsend to sufferers from dis-
pepsia and stomach troubles. Un-
rivalled for diseases of the stomach,
liver and kidneys, they build up and
give new life to the whole system.
Try them. Only 50c. Guaranteed by
Hall's Drug Store.

IMPACTED EAR WAX.

Where It Comes From and How It
Should Be Treated.

The normal secretion of the orifice
of the ear is the product of glands
situated in the outer half of the canal
only. This secretion—the cerumen, or
ear wax—is slowly poured from the
gland ducts as a thin, yellowish liquid.
As it quickly loses a large amount of
its watery elements by evaporation and
becomes admixed with dust it forms
a thin layer, waxlike in color
and consistency, which normally cov-
ers only the outer portion of the canal,
that in which the glands are located.

This layer of material probably has
its chief function, in common with the
few small hairs in the same location,
in protecting the vibratory membrane
—the drum—from the contact of dust.
It is interesting to observe that the
exit of this layer of wax is accom-
plished by nature chiefly with the aid
of the motion communicated to the
ear canal by the movement of the jaw
in chewing and talking, a motion read-
ily felt by touching the orifice with the
finger tip during these processes.
The constant increase of the secretion
is therefore provided with a corre-
sponding loss, which takes place almost
as imperceptibly as the constant loss
of the superficial layer of the skin from
the surface of the body.

This explanation serves to make
clear why the use of ear spoons, pins
or hairpins is unnecessary. The use
of such objects is not only superflu-
ous, but it is often the cause of the
very condition which those who use
them would prevent.

Even too vigorous washing with a
twisted cloth or sponge, for example,
may result in pushing the wax back
into the canal until a mass sufficient
to block the entire opening is accumu-
lated.

The first intimation of the presence
of impacted wax is often the sudden
occurrence of a considerable degree of

deafness. This is most likely to hap-
pen on a damp day or just after or dur-
ing a bath. A slight amount of mois-
ture causes the mass to swell so that
the narrow chink previously existing
between the mass and the canal is
closed. If it is not now removed, the
mass may shrink and the hearing pow-
er be temporarily restored, only to be
lost again when conditions arise caus-
ing an increase in the size of the mass.
Firm, gentle syringing with warm
water from a piston ear syringe is usu-
ally regarded as the safest and best
method of removing the mass, the
handling of which had better be in-
trusted to a physician or trained nurse,
if possible.—Youth's Companion.

THE COOKBOOK.

In making any sauce put the flour
and butter in together, and your sauce
will not be lumpy.

A heavy salad is always out of place
in an elaborate dinner. Mayonnaise is
permissible, but French dressing is
better.

If corned beef is very red, which
means it is very salt, put it to cook in
cold water. This draws out a portion
of the salt.

When croquette mixtures are too wet
to mold and shape, put in more chop-
ped meat or fish or in a desperate case
finely pounded breadcrumbs.

In making custard for lemon pies it
is better to partly bake the crust be-
fore adding the mixture so that it may
not be absorbed by the paste.

Gingerbread is improved by adding
to it, when mixing, a cupful of chop-
ped prunes. Use the juice of the
prunes instead of water and mix the
dough a little stiffer.

Fried breakfast bacon is much im-
proved if cooked in some of the bacon
fat saved from the previous day. There
should be just enough for the bacon to
float in, and it must be hot before the
rashers are added. Cook three min-
utes.

ADVOCATE
Guessing Contest!

CLOSES AT 9 P. M. SATURDAY NIGHT, AUGUST 16.

Great interest has been aroused in the Advocate's
Guessing Contest as is evidenced by the many guesses that
are daily received on the blank coupons clipped from
copies of the Advocate.

Many people are guessing two or three times. One
may guess as often as he wishes, providing each guess is
accompanied by payment for five weeks' subscription to
the paper.

REMEMBER, \$200.00

Has been deposited by the Advocate for free distribu-
tion among readers of this paper who make the best guesses
on the actual population of Newark on June 1, 1902. The
one who makes the best guess will be given \$50, second
\$25, third \$20, fourth \$15, fifth \$10, to the next five nearest
\$5 each, to the next ten nearest \$2.50 each, and to the next
fifteen nearest \$2 each.

THIRTY-FIVE CASH PRIZES

Aggregating \$200, given free to Advocate readers, who
are required only to pay the sum they may owe for back
subscription and five weeks in advance for the paper.

In case of a tie prizes will be divided equally.

Guess as often as you wish. For every 50 cents

paid on advance subscription to the Daily Advocate you
may have one guess.

In 1890 Newark had 14,289 people and in 1900 the offi-
cial census was 18,157. What is the population June 1,
1902? The census is being carefully and accurately taken
by experienced men. No person in the Advocate's employ
knows anything about the census returns and no employe
s permitted to enter the contest.

MAKE YOUR ESTIMATE ON THIS COUPON.

My estimate of Newark's population, June 1, 1902, is.....

Avoid Trouble

and save yourself pain, by having those old teeth out before the bad weather comes. Now is the most favorable time of the whole year to have it done, as a whole set can be taken out now with less trouble and pain than a single tooth when it is inflamed and aching. In fact there will be little or no pain at all if done now in a careful and up-to-date manner as we do it.

Y. M. C. A.**PICNIC COMMITTEE REPORTS A BALANCE ON HAND.**

Volley Ball Games—Gift of Books—Magazines at Low Price—Sunday Services.

At the regular monthly meeting of the Board of Trustees last night, some interesting reports were submitted by the different committees.

The Picnic committee reported all bills paid and a balance of \$37.40 on hand. At the suggestion of the General Secretary it was decided to use this fund in providing additional games for the game rooms, some new magazine covers for the reading room, and a Wernecke book case for the reception room to be supplied with only the latest and best books as fast as they can be secured. The gift recently of Ralph Conner's three books, "Sky Pilot," "Black Rock," and "The Man from Glengary," by a friend of the Association has led the board to believe that if a suitable case were provided, other similar gifts might be made. Such favors would certainly be very greatly appreciated.

The committee on reading room and library has ordered a number of additional magazines. The following magazines and papers will hereafter be found on file in the reading room:

(Any of these magazines can be secured from the Association for one-half the cost price the day they come off the file. Orders may be left at the Y. M. C. A. office and copies will be delivered each month.)

American Boy, Association Men, Association Boys, Advocate of Peace, Century, Christian World, Christian Endeavor World, Cosmopolitan, Harper's Weekly, Harper's Magazine, Interior, International Studio, Scribner's, St. Nicholas, Success, Sunday School Times, Union Gospel News, World's Fair Bulletin, Youth's Companion, Ohio State Journal (Daily except Sunday), Judge, Life, Ladies' Home Journal, McClure's, Munsey's, Outing, Outlook, Ram's Horn, Saturday Evening Post, Scientific American, The Newark Advocate, The Newark American-Tribune.

The Wernick Card system has been introduced for keeping the membership and other records of the Association. By actual count the membership of the Association at this date is exactly 300. It is confidently hoped that with the new features that are being added to the Association work and the renewed energy which is to be put forth along all lines this fall, this number will reach 500 before January 1, 1903.

The third set in the series of Volley Ball games, between the married and unmarried, was played off last night by the business men's class. Owing to the rule that the games shall proceed even though only three men be present, the unmarried men worked to a disadvantage as some of their best players were absent. The married men won the three games, making the score at present 6 to 3 in their favor.

Attendance last Sunday being larger than usual, all young men, whether members of the Association or not are cordially invited.

ONLY A MASK.

Many are not being benefited by the summer vacation as they should be. Now, notwithstanding much outdoor life, they are little if any stronger than they were. The tan on their faces is darker and makes them look healthier but it is only a mask. They are still nervous, easily tired, upset by trifles, and they do not eat or sleep well. What they need is what tones the nerves, perfect digestion, creates appetite, and makes sleep refreshing; and that is Hood's Sarsaparilla. Puffis and teachers generally will find the chief purpose of the vacation best subserved by this great medicine which, as we know, "builds up the whole system."

Lewis and Clarke county, in Montana, shows a gain of over 200,000 over last year's assessment. The total valuation of the county, exclusive of the railroads, is \$15,896,678, of which \$10,889,025 is real and \$5,007,652 personal.

JUST LOOK AT HER.

Whence came that sprightly step, faultless skin, rich, rosy complexion, smiling face. She looks good, feels good. Here's her secret. She uses Dr. King's New Life Pills. Result—All organs active, digestion good, no headaches, no chance for "blue." Try them yourself. Only 25c at Hall's Store.
